

Publication fees & waivers

The publication of papers submitted to Asian Pacific Journal of Nursing and Health Sciences (APJNH) incurs an article processing fee (APC) of Rs. 2150 (INR) for Indian Authors & \$100 (US Dollar) for Foreign Authors. Authors from SAARC countries can pay in Indian Currency. The APC is to be deposited only after the submitted paper is accepted for publication. There is no fee for submission of manuscript; similarly Readers too do not need to pay any fee. APJNH is an open access, peer reviewed journal.

Waiver of Article Processing Charge

Asian Pacific Journal of Nursing and Health Sciences (APJNH) do not want fees to prevent the publication of worthy work. APJNH also maintains a fund to waive the fee for authors in developing parts of the world whose university or institute is unable to pay, or who have not received sufficient financial support from funding agencies.

We offer a fee waiver on a case-by-case basis for individual authors or author groups from countries in the developing world, but only if the request for a waiver has been done. The request for fee waiver must be done only after submission of the manuscript.
